

# decoration

-Dino Brandao -

## verse I

the pope fell on the ground on that magnet in the kitchen  
that it broke a bit of his neck and you feel sorry for that  
don't worry things do fall apart  
we've long stopped building things to last  
I love your shirt, I love your hair  
the world's having a tantrum  
and I don't care

## chorus

We're only decoration  
put a little something on something else  
only decoration

## verse II

love thy neighbour like you love thyself  
Is that where the actual problem's lying  
Well, I open walnuts not because it's my favourite nut  
but because I like to open them a lot

## chorus

We're only decoration  
put a little something on something else  
only decoration

## bridge

No one is to blame  
you can find the details in the contract  
I am not okay cause I've seen what happens  
on the internet and now I'm a mess

## chorus

We're only decoration  
put a little something on something else  
only decoration
